Establishing and
maintaining high
quality international trade
relationships between
China and
the World.

OVERVIEW

Shengli Ltd prides itself in being a global supplier of an extensive range of industrial and infrastructure equipment and materials. Our products are manufactured to the finest level through our Chinese affiliates, providing a standard of quality for a price which exceeds customer expectations.

Incorporated in November 1999, Shengli Ltd first appeared as a joint venture between Shandong Shengli (a highly reputable Chinese government owned company and a leader in many agricultural and industrial fields) and Atkin Management Ltd (a New Zealand based trade consulting company). Shengli Ltd has since flourished, providing services throughout the world and with subsidiaries of its own.

With the emergence of China as an open economy, Shandong Shengli expanded into international markets and established representation within the Western business world—New Zealand was selected as an appropriate country to base its international operations.

New Zealand has extensive international acceptance as a reputable trading country, and was the first country to officially accept China as being an open economy.

There were many other factors which influenced the decision, such as New Zealand's heavy reliance on effective international trade and the subsequent development in being the first country to form a Free Trade Agreement with China.

The decision has proven to be a good one, and has resulted in extremely effective global supply lines, both for the large China corporations linked to Shengli Ltd and also for our customers throughout the world.

Our company is proud to carry the endorsement of the Chinese Embassy in New Zealand for our endeavours in establishing and maintaining high quality trade relationships between China and New Zealand. This success quickly developed internationally to where

we are now—a strong company which provides an extensive range of China's quality products and services to customers throughout the world.

Shengli is proud to carry the endorsement of the Chinese Embassy in New Zealand

STEEL PIPE

MANUFACTURING

Shengli Ltd's steel pipe is manufactured in Tianjin China by Tianjin Xinyue Steel Group.

The mill has a team of 450 employees, including 67 senior engineers and technicians, running 6 double submerged arc spiral welding production lines and reaching a production capacity of 450,000 tons.

Each production line has introduced a Lincoln welder from USA and installed a full set of online testing equipment. The equipment includes X-ray industrial TV, ultrasonic testing and hydrostatic pressure testing, amongst other advanced testing facilities. This enables Xinyue to produce SSAW steel pipes ranging from diameters 219.1 - 3048mm, with wall thickness between 5-25.4mm. The length of a single joint can be up to 70m and the top level of production is X80.

Our facility is run in strict accordance with SIO9001:2000 quality management system and monitored by the American Petroleum Institute with APL 5L PSL/PSL2 accreditation.

We have the highest quality controls in place, overseeing the details from pre-purchase inspection on raw materials, through to after sales service.

Tianjin Xinyue Steel Factory

Our pipe is widely used in the following applications:

- Petroleum and Natural Gas Transmission
- Urban Heating Networks
- Water Supply
- Sewerage Discharge
- Steel Structures
- Bridges
- Foundation Piles
- Port Machinery
- Electrical Grids

LINCOLN WELDER

The Lincoln Welder uses an advanced double submerged-arc welding technique
